November 2022 *This is immediately appealing on the nose showing blackberry, clove, dried herb and roasted nut aromas with a hint of milk chocolate. The medium-full-bodied palate displays ripe fruit flavours with smooth texture and silky tannins, making it attractively supple and flavoursome.*

December 2022 *Dark and broody with a core of black currant and toasty black berry fruits. A mix of barrel spices and soft peppery qualities then violets and a mild toasty wood smokiness. A very easy drink on the palate with an abundance of dark red berry flavours, plums and clove, vanilla and wood. Moderate to firm tannins and plenty of acidity. Well made, balanced and ready with best drinking from 2023 through 2026.*
