

G' VINE
FLORAISON GIN 40%

THE VINE FLOWER IN THE HEART OF THE GIN

G'Vine embodies the French way of life and love of magnificent quality. Therefore, it is not only an ode to French grapes, but a love letter to ten other ingredients found in the greatest reaches of the globe. Each of the ten aromatic plants and spices are sourced from the greatest producers in the world, all coming together in the Cognac region with their local **vine blossom** for an elegantly balanced composition.

Developing G'Vine Flairaison is no different from creating a rare and precious perfume.

Each plant and spice are carefully chosen to play a role in the final mixture. One by one, they are independently macerated into neutral grape spirit before being joined together for the final distillation.

The resulting blend is precise and smooth, refined and intentional.

The secret to G'Vine Flairaison's signature aroma is the ephemeral vine blossom. Handpicked every June in France, it brings a surprising roundness to our gin, making it fresh and balanced.
