Wine description	Very fruity aromas, fresh and playful, acidity and sweetness are well balanced, great and easy to drink on a summer evening Typical Mosel Riesling with a ripe acidity,
Food recommendation	Salads with fruit components and a lemon based dressing, light currys, Thai food, good in combination with a hint of spice
Vintage description	Significantly cooler and wetter, with a later start to vegetation and a later harvest than in previous years. Budding was at the beginning of May, flowering in mid-June, about two weeks later than in 2020. Due to the higher proportion of noble-rot grapes, the grape harvest required a lot of patience as well as a high selection effort. The late-ripening Riesling was able to show its strength this year, as the grapes from the south-facing top vineyards not only had higher must weights but also riper aromas.
