TASTING NOTE

Thatchers Gold is a perfectly balanced, medium-dry golden cider with a smooth and refreshing taste.

For more than a hundred years and over four generations, the Thatcher family has been quietly perfecting the magic that turns apples into cider. With 500+ acres of orchards in Somerset, England, the family grows over 450 apple varieties including rare and heirloom trees.

Thatchers do things they way they should be done. Which is why Thatchers Cider is the way cider's supposed to taste like. That's Gold.

Imported from the UK and packed in Australia.
