

JUNO

JUNO EXTRA FINE GIN 40%

ounr

Juno Extra Fine Gin is the heart of a collection of New Zealand premium gins produced by BeGin Distilling Ltd.

Juno is the perfect goddess to oversee the marriage of flavours that happens within the copper pot still during distillation. Ensuring that the carefully selected botanicals and the beautiful water of Mt Taranaki come to fruition as an extra fine gin of distinction.

BOTANICALS

Juno Extra Fine Gin has juniper at its heart with coriander bringing warmth and a hint of lemon.

Other key botanicals in Extra Fine gin include orris root, kaffir lime leaves, green cardamom, Angelica root, manuka and cassia bark.

Key to the perfect gin is the quality of the ingredients. From the extra neutral spirit, thrice distilled, to the robust juniper and golden coriander, only the best is selected. And for pure perfection, the water comes from Mt Taranaki.

Mount Taranaki, New Zealand
